

# Mood lighting hire....

Up-lighting, mood lighting, architectural room lighting, painting the room with light: it's known by many different names but if you've ever seen a venue before and after up-lighting has been installed, then you'll appreciate the transformation that takes place and know the value of this service.

## Transform your venue with lighting

### Customer Comments:

*The mood lighting made the room exactly as I'd imagined it. No nightclub strobe feel, no dark disco room, just a spectacular party environment with just the right amount of mood lighting that allows for people to stay in the room and chat but does not take anything away from your disco lighting for those having a boogie..*
